

HTTP 5221 Security & Usability Critical Path (Security)

Summer 2026 Instructors: Sean Doyle & Andrei Navumau.

The Critical Path is the course schedule. It is an important document that lays out weekly **and/or** module objectives that you are responsible for to ensure academic success. Download and/or print out a copy of the Critical Path and refer to it regularly.

Unless discussed and specifically approved in advance by your instructor, **the use of generative artificial intelligence (also known as “GAI” or “AI” for example: ChatGPT) is not permitted** for this course and its use is considered academic misconduct.
